NOTES.

The Act of 8th April, 1843, appropriated for ordinary repairs of canals and railroads, \$186,000, all of which has been drawn.  
The Act of 29th September, 1843, appropriated for breaches on canals, if necessary, \$50,000; of this \$36,862 05 has been drawn, being all that was required.  
There was paid in cash for interest on the funded debt, during the fiscal year, \$10,962 71, per Act of 7th March, 1843.  
There was also paid to domestic creditors, on certificates issued by Auditor General, on account of principal and interest, over and above the amount received in certificates for State stocks sold, \$98,392 64. The interest on the balance of certificates for this year, is estimated at \$12,360.  
The motive power fund is specifically appropriated to the maintenance of said power.  
There is due the Southwark Bank a temporary loan of \$12,500, that should be provided for by appropriation.  
For the interest due as per guarantee to the Danville and Pottsville railroad, on 1st December, 1842, and the interest for do. due the Bald Eagle and Spring Creek Navigation company, certificates were issued per Act of Assembly. The interest since due has not been provided for.  
There will be an appropriation required for the repairs, &c., of the public grounds, &c.  
The balances of the appropriations per Act of 29th September, 1843, will be nearly, if not quite exhausted by the time the appropriation bill of this session is passed; and it would require an appropriation of the amounts set out in the estimate, as herein set forth, in order to meet the payment until an appropriation could be made by the next Legislature.
